CLEANSE - Steam may be used during cleansing. Remove makeup and impurities with DermaplanePro Barrier Protect Gel Cleanser. Cleanse the skin twice - removing the second cleanse with a DermaplanePro Baby Face Facial Cloth.

PREP - Prep the skin using DermaplanePro AHA/BHA Skin Prep Solution on 2x2 non-woven esthetic wipe. Apply using medium pressure. This removes any remaining cleanser and makeup residue. The Willow Bark Extract (BHA) and Lactic Acid (AHA) in the prep solution will penetrate to begin the exfoliation process.

ANALYZE - Cover the eyes with dry eye pads or Sunnies Goggles. Position and turn on the magnifying lamp. Discuss skin analysis with the client. Tweeze any coarse hairs on chin.

NOURISHE DERMAPLANING OIL - Apply 1 pump of Nourishe to client's face and neck. Be careful to avoid getting in the eyes. Nourishe is ok on the lips. Nourishe should be a fine film on the skin.
